BRIEF ABSTRACT OF LETTER.

Forwards a petition from the officials of Balgodi, Koppa Taluk and requests that the Hospital Assistant at Koppa may be directed to visit Balgodi ~~fortnightly~~ twice a week in order to render Medical aid to the officials and their families living there.

NOTES AND ORDERS.

2 The Senior Surgeon in his letter No. 24 dated the 6 July 09 suggested that the Hospital Assistants should not be permitted to leave their Dispensaries on weekly visits to villages. This suggestion was approved of in Govt. Pro No. 1037 dated the 5th August 09. In Septr 08, Lt. Col. Smyth,

The Senior Surgeon urged the importance and the necessity of reviving the system of periodical visits of Hospital Assistants to adjoining villages for rendering medical aid in such places as they formerly visited and for which visits the people concerned most urgently pray. His proposal was not sanctioned and he was informed that the system of periodical visits of Hospital Assistants to outlying places for rendering medical aid is highly prejudicial to the working of the dispensaries in their charges and causes great inconvenience to the public and the requirements of outlying places will be met by increasing the No. of Ayurvedic practitioners (vide Govt. pro. No. 8656 dated 5-3-09 Govt. No. 96-08-4).

The District Board of Kurnool was once of opinion that the visit of Hospital Assistants to villages once a week will not serve any useful purpose & that in important villages where there is a necessity for a dispensary, a Native doctor may be permanently employed.

Offg. Secretary to the Government of Mysor
General and Revenue Departments.

Sir,

In forwarding herewith a petition from the officials of Balgadi Koppa Taluk, praying that a bi-weekly dispensary may be opened at Balgadi I have the honor to state that there is at present a Dispensary at Koppa at a distance of about 1½ miles from Balgadi The Taluk officials who are all residing at Balgadi and who frequently suffer from malarial fever and other complaints find it very difficult to go to Koppa themselves or take

their

their families there for treatment without considerable inconvenience and detriment to Government work. Prior to the receipt of

2 Government Order No. 1037/9-07-2 dated 5th August 1907 prohibiting the periodical visits by Hospital Assistants to places outside their dispensary stations, the Hospital Assistant of Koppa was visiting Balgadi twice a week but these visits have been discontinued since the issue of the above Government Proceedings.

The Senior Surgeon whom I requested to permit the Hospital Assistant at Koppa to visit Balgadi twice a week as before to attend to the medical wants of the officials and their families living there, has expressed his inability to do so as it would be against the above Government Order.

In the malnad where the officials and their families are constantly suffering from malarial fever and kindred complaints

it is very necessary as much in the interests of the officials as of the Government that every facility should be afforded to them for medical attendance. Especially considering that most of the officials have insured their lives with Government, I request that the Government may be kind enough to reconsider their order contained in the Proceedings quoted above and direct that the Hospital Assistant at Koppa should visit the Balgadi official quarters twice a week in order to attend to the medical needs of the officials and their families living there.

I have the honor to be,

Sir,

Your most obedient Servant,

The establishment of the Leeds Dispensary was really a boon to the many suffering humanity, in the absence of a Government institution locally it was not only useful but powerful help to the patients but also help to the hospitals in giving advice to the helpless patients who could not go to a certain Hospital. Cases that could not be attended to locally were advised to seek help elsewhere in this way many a bad case would obtain relief, probably the advice given at the Leeds institution when I visited Bolton last year, such a family was free from that fearful affair complaints the revival of Tuberculosis Bronchocele, is not only be a boon, but an urgent necessity

I beg to report that Officials in Kalladibetta have been placed in a peculiar position. The Hospital is in the Town of Koppa and the Officials have to go nearly a mile and a half from their quarters at Kalladi for medicine. The Hospital at Koppa has a Dispensary attendance and generally it is impossible to get medicine comfortably. Co-operative Dispensary I have been observing the above Officials difficulties
